Schedule of Fees for New Zealand Users

1 Introduction

ProductRecallNZ enables effective and efficient communication of recall and withdrawal information. Easy for your trading partners, connected to your regulator (for recalls) and online. Modernise the way you communicate recall and withdrawal information with notices that are targeted, precise and immediately actionable.

This fee structure has been designed based on an “insurance” model, where a low fee is levied on an annual basis. A company’s Gross Annual Turnover has been used to develop fee brackets providing a lower cost to smaller entities; consistent with other GS1 membership and service fees.

2.2 Annual Fees for ‘Internal Locations’

GS1 will provide, on request, ‘Internal Locations’ for your organisation at \$99 per location per annum. Locations are typically set up to provide extra internal recall points of contact an organisation might require (eg: warehouse or distribution centre or retail site). You can add as many users against a particular location but they can only be setup for the purposes of receiving and responding to recall notices.

Internal Location (eg: Store, DC)	Annual Fee (NZD) = \$99.00
-----------------------------------	----------------------------

NB: ‘Internal Locations’ indicated as the orange circle ‘recipients’ (versus external customers as the blue circle ‘recipients’)

2.3 SMS Fees

Pricing for SMS fees is 10 cents per text message.

3 Notification Costs – issuing a notice to Non-Subscribed Recipients

NB: This only applies to ‘Live’ Notifications and not those generated in Mock Mode as part of training purposes

3.1 Non-Subscribed Recipients

Non-Subscribed recipients are customers and trading partners you may wish to notify a recall or withdrawal to via the ProductRecallNZ service but which are not themselves registered on the service.

Note: The Non-Subscribed functionality is not built to allow businesses to communicate with their own internal locations or franchises and that should be handled via setting up Internal Locations, as discussed in 2.2.

3.2 Costs

- 0-1000 Non-Subscribed Recipients: For every recipient up to the 1000th there will be a fee of \$0.50 per recipient (eg: sending to 500 non-subscribed recipients will incur a fee of \$250)
 - 1000 < Non-Subscribed Recipients: For every recipient after the 1000th there will be a fee of \$0.10 per recipient.
 - SMS messages which can be generated optionally to be sent to non-subscribed recipients will be charged a fee of \$0.10 per sms message.

If you have not paid all of the initial fees payable in respect of your use of GS1 ProductRecallNZ by the end of the waiting period, the waiting period continues until those fees have been paid.
