20/04/17	Added section – Account Administrator resetting user passwords	Jennifer Tate	3.00

Introduction

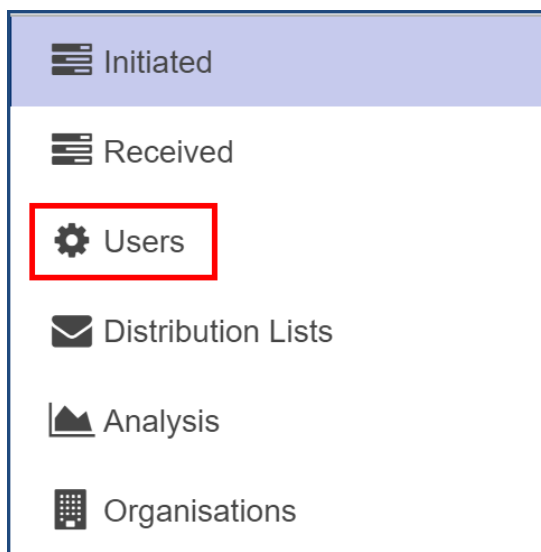

In order to use this helpguide, you must have either of the following roles:

- Account Administrator
- User Administrator

Please note that each organisation has just one Account Administrator who is the key contact for ProductRecallNZ and is able to administer users and make changes to the account. However, an organisation can also have a User Administrator user who can manage users for the organisation.

Accessing ProductRecallNZ User Management

Upon logging in to your ProductRecallNZ account, you will see the option 'Users' on the left hand menu. Click on this to access the 'User List'. If this option is not present on the left hand menu after logging in, you may not have administrative rights. Please contact GS1 if you believe this is a mistake.

You will be taken to a 'Users List' screen where you can see all the users attached to your organisation.

If you have private locations (only relevant for Retailers) attached to your organisation, you may see a user listed multiple times for each site to which they are attached, for example -

Users List

Username / Name ?

Organisation ?

Status ? Active Suspended All

Account Administrator Administrator Contact
 Approver GS1 Global Initiator
 Receiver Regulator Viewer

GS1 Prod Private Receiver 1	Supplier GS1	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>					<input checked="" type="checkbox"/>			
GS1 Prod Private Receiver 2	Supplier GS1	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>					<input checked="" type="checkbox"/>			

1.0 Adding a New User

To add a new user, on the 'Users List' page, click 'Add User' on the right hand side of the page, above the list of users.

Export User Details
Export User by Organisation

Once on the 'Edit User' screen,

- fill in all mandatory fields (fields with a star next to them)
 - This will include adding a user role (see 'Roles by Organisation') and therefore attaching the user to the selected organisation.
 - If you wish the user to have user administrative rights (be able to add users themselves) you will need to 'tick' the 'user administrator' box.

For help with selecting options for a user, please hover your mouse over the question mark symbols for more information. To understand the available user roles in more depth please read [this article](#).

Edit User

Username ? James@recall.com

Previous Next Reset Password Save & Next

When all mandatory fields are complete, press 'Save and Next' to be taken to the User Messaging Preferences screen.

On the user messaging screen, certain default messaging will be set up automatically. You will be able to turn on or off specific email/SMS alerts which will be sent to users when notifications are actioned. The options shown here depend on the user roles selected for the user –

User Messaging

This user has no mobile number entered. SMS notifications will not be sent.

Received Notification Messaging

- EMAIL Notification has been Issued
- SMS Notification has been issued
- EMAIL Notification unread after 1 hour
- SMS Notification unread after 1 hour
- EMAIL Notification unread and not complete after 12 hours
- EMAIL Notification acknowledged but not complete after 12 hours

Initiated Notification Messaging

- EMAIL Notification Submitted for Approval
- EMAIL Reminder - Notification Go-Live Required
- EMAIL Notification Approved
- EMAIL Notification Rejected
- EMAIL Reminder - Notification Approval required
- SMS Reminder - Notification Approval Required
- EMAIL Notification Go Live
- EMAIL Notification Closed
- EMAIL Notification Cancelled

For help with user messaging options please see our article on [User Messaging Preferences](#)

Once you have selected 'save and back' the user added will receive an email letting them know they have been added as a user and have to [log in for the first time](#).

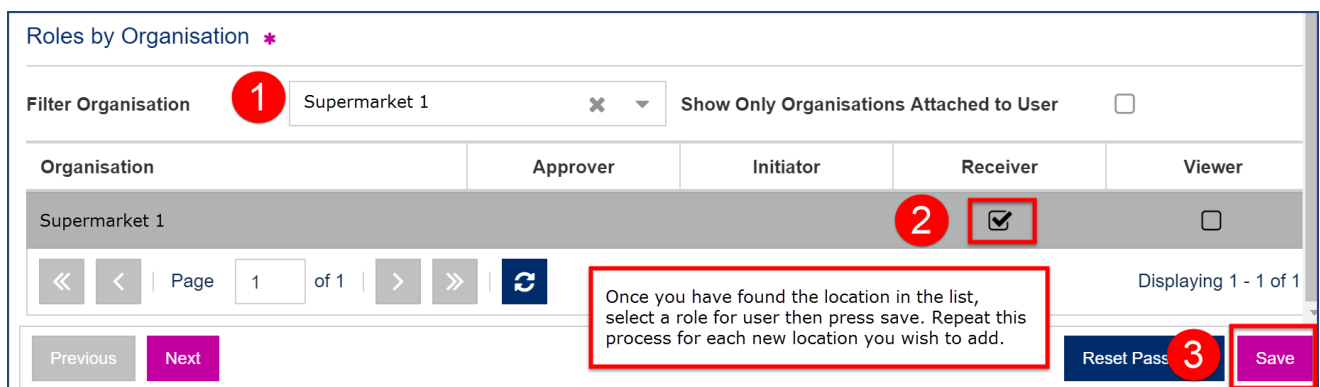

2.0 Adding a User to Multiple Locations

Please note: this section is most relevant for organisations with private receivers attached, such as Foodstuffs North and South Island, Freshchoice/Supervalu or Z Energy.

For an Initiator that wishes to be attached to more than one Initiator organisation, please contact GS1 Support on 0800 10 23 56.

Please note: Private Receivers are special 'receiver' sites that can only be targeted by their head/support office.

Please follow [Section 1](#) to add a user. Once the user has been saved, double-click on the user to enter the editing screen.

Roles by Organisation *

Filter Organisation **1** Supermarket 1 x Show Only Organisations Attached to User

Organisation	Approver	Initiator	Receiver	Viewer
Supermarket 1			2 <input checked="" type="checkbox"/>	<input type="checkbox"/>

Page 1 of 1

Once you have found the location in the list, select a role for user then press save. Repeat this process for each new location you wish to add.

Reset Pass **3** Save

Does the user simply need to have visibility of what each location is reporting, but does not need to report or maintain users?

In this case, you will simply add the user to the locations without selecting them as a User Administrator or Team Leader.

User Administrator Role Required?

If a user needs to administrate users at all the organisation they are attached to, as well as accessing the progress reports and reporting back on behalf of locations

If yes, please select the 'User is a User Administrator' option and then add the user to the new location(s).

User is a User Administrator	<input checked="" type="checkbox"/>
User is a Team Leader	<input type="checkbox"/>

The 'Team Leader' role is only used by a select number of organisations and is unlikely to be relevant for your organisation.

3.0 Adding a User as a Recall/Withdrawal Notification Contact Only

A notification contact is a static contact who will not action a notification but will appear on notifications that are sent out by your organisation eg: Central Coordinator who receivers can contact as the 'lead' on the notification.

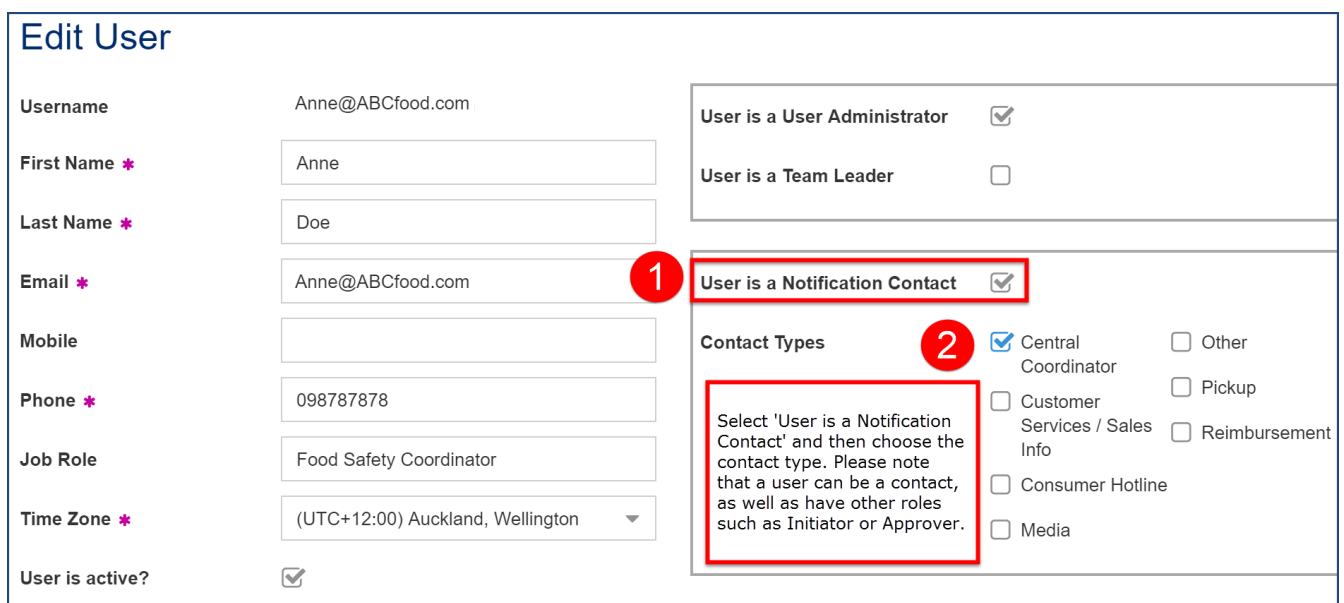

If no contact has been specifically added to the organisation, then the user who creates a notification will become the main contact. With newly onboarding organisations (since December 2016), the Account Administrator is automatically assigned the role of Recall/Withdrawal Coordinator for ProductRecallNZ.

If a new contact needs to be added to replace this, or additional contacts need to be added to manage different aspects of the recall or withdrawal, they will need to be added as a 'Contact' user.

Adding or Removing an Existing User as a Contact

On the left hand menu, go to 'Users' then search the user on the 'User List'. Double-click on them to edit then tick the 'User is a Notification Contact' checkbox and then select a contact type. Once this is done, press 'save' to save your changes.

To remove them as a contact, simply untick the 'User is a Notification Contact' checkbox and 'save'.

The screenshot shows the 'Edit User' form with the following fields and options:

- User is a User Administrator:**
- User is a Team Leader:**
- User is a Notification Contact:** (highlighted with a red box and labeled '1')
- Contact Types:** (highlighted with a red box and labeled '2')
 - Central Coordinator
 - Other
 - Customer Services / Sales Info
 - Pickup
 - Reimbursement
 - Consumer Hotline
 - Media

A red box highlights the 'User is a Notification Contact' checkbox and the 'Contact Types' section. A text box within the 'Contact Types' section reads: "Select 'User is a Notification Contact' and then choose the contact type. Please note that a user can be a contact, as well as have other roles such as Initiator or Approver."

Adding a New User as a Contact

- Follow the [section above](#) for adding a new user
- Follow [Section 3](#) for adding a contact.

Adding a New User as a Contact Only

Even if a new user is intended as a contact only, they will still need to be attached to a location and have a user account. This way, they can view any notifications that they have a role in.

To do this, [add them as a user](#) with a [notification contact role](#) and then add them to the organisation as a 'Viewer' role only.

Edit User

Username	Anne@ABCfood.com	User is a User Administrator	<input type="checkbox"/>
First Name *	Anne	User is a Team Leader	<input type="checkbox"/>
Last Name *	Doe

Save

You will be taken to a screen with user preferences. Importantly, this is the screen where you can make a [user active or inactive](#), make them a [notification contact](#) (able to be selected as a contact during a notification) as well as edit their roles within each organisation.

you can click 'next' to be taken to the ['User Messaging' screen](#). Here, you can change the user's text and email message preferences.

Once you have made all required changes, click 'Save and Exit' to be returned to the 'User List'.

5.0 Changing the Account Administrator

To change the Account Administrator for your organisation, you must be the current Account Administrator. If you are not, you will need to contact GS1 to do this on the organisation's behalf. Please see [this article](#) for more information.

6.0 Deactivating or Suspending an Active User

Double-click on the relevant user in the list and find the field that says 'User is Active?' then uncheck the box.

Edit User

Username	Anne@ABCfood.com	User is a User Administrator	<input checked="" type="checkbox"/>
First Name *	<input type="text" value="Anne"/>	User is a Team Leader	<input type="checkbox"/>
Last Name *	<input type="text" value="Doe"/>	User is a Notification Contact	<input type="checkbox"/>
Email *	<input type="text" value="Anne@ABCfood.com"/>		
Mobile	<input type="text"/>		
Phone *	<input type="text" value="098787878"/>		
Job Role	<input type="text" value="Food Safety Coordinator"/>		
Time Zone *	<input type="text" value="(UTC+12:00) Auckland, Wellinto"/>		
User is active?	<input type="checkbox"/>	De-select this to remove the user from all roles in all organisations.	

A dialog box will pop up letting you know that this user will no longer be able to access ProductRecallNZ. Click 'Yes'.

Warning

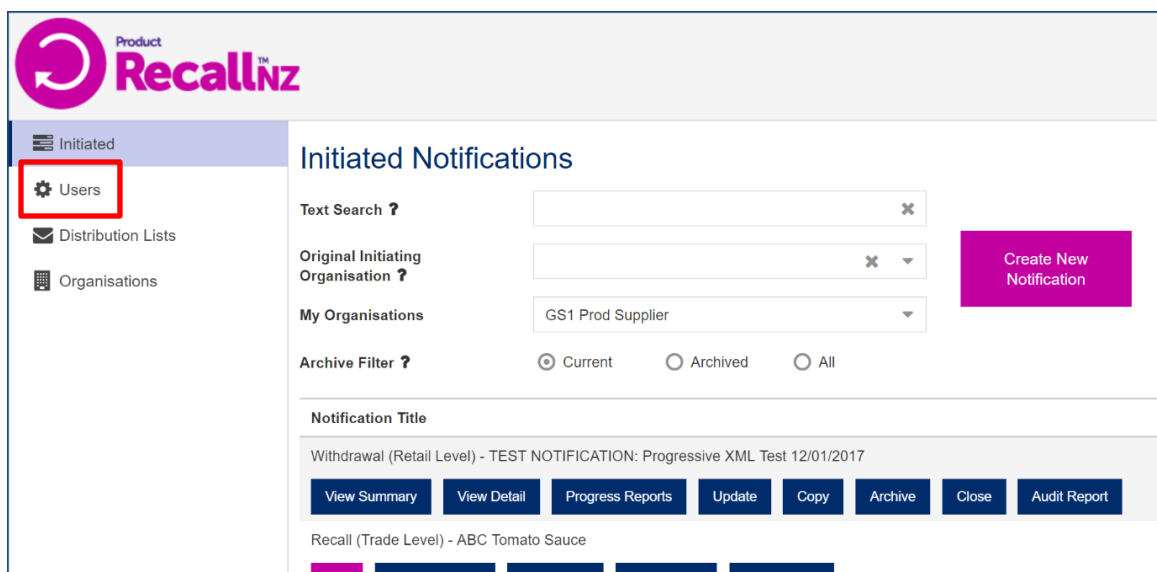

You are deactivating a user. This will disable the user's access to all organisations. Do you want to continue?

After this, please press the 'save' button on the bottom right of the screen.

The user has now been deactivated and will no longer be able to login.

7.0 Resetting a Password on behalf of another user

Although every user can reset their own password on the Login Screen (www.productrecallnz.org) by clicking the 'Forgot your Password?' link, it may be preferable for the account administrator to reset a user's password on their behalf.

1. Click on 'Users' on the left-hand menu
2. Search in the username/Name filter box for the user's name or username.
3. Once you have located the user, double-click on the user or click the 'edit' icon to open the editing screen.

Edit User

Previous Next **Reset Password** Save

4. On the bottom-right corner of the screen, click the 'Reset Password' button to reset their password.
5. This will send an email to the user letting them know that their password has been reset and that they must create a new one. Please note: This link expires after 2 days so please make sure the user is aware of this.

Password Reset Email Sent

An email has been sent to the user with a link to reset their password.

OK

This is the email that the user will receive within a couple of minutes of the password being reset. They will need to click the link to set a new password.
