Health System Catalogue (HSC) Programme Supplier STATUS UPDATE #8

November 2022

Te Whatu Ora
Health New Zealand

Summary

The growth of the Health System Catalogue continues; 112 suppliers have now provided a total of 136,831 GTINs. In addition, a large number of suppliers are in the final stages of data gathering. The Supplier Portal is complete and a number of suppliers have now provided data through the portal. All of the Te Whatu Ora hospitals, Procurement Teams and Pharmac are now accessing the catalogue and searching the HSC for product information. We are also now beginning work on the post-foundation phase activities – this update provides some further information in this regard.

Thank you for your ongoing support as we continue to develop the Health System Catalogue to support the NZ Health System.

Progress Update

- We continue to progress towards a comprehensive product catalogue as we approach the end of the foundation phase of the HSC Programme.
- The HSC Supplier Portal is now available for general use. A total of 9 suppliers have already published data through Supplier Portal, with another group finalising their data.
- Te Whatu Ora district onboarding to the HSC is now complete with all districts using the HSC to access medical device product and pricing information.
- We are developing an interim solution for logistics providers, and are working collaboratively with Onelink to test the process.
- Recent communications from Te Whatu Ora have reinforced the strategic importance of the HSC as the central place to access product and pricing information for products used in public hospitals. Targeted communications will continue as we progress forward.

For further information or enquiries, please contact <u>hsc@nzhp.health.nz</u>

COMPLETED (since last update)

- All of Te Whatu Ora Districts now have access to view items in the HSC.
- We now have a total of 112 Suppliers who have provided product data.
- The Supplier Portal is available for general use, with 9 suppliers already using it.
- A further 99 medical device suppliers are engaged and are in different stages of data preparation.

PLANNED (for next period)

- Continue onboarding of suppliers, item and pricing information.
- Finalise the process for logistics and supply chain providers.
- Match data from Te Whatu Ora Districts, Pharmac and supplier provided data, to create a sector wide view (for each item).
- Test the functionality for inclusion of images, product specifications and other product documents in the HSC.

Health System Catalogue (HSC) Programme Supplier STATUS UPDATE #8

Te Whatu Ora Health New Zealand

Continued

Images, Product specifications and Documents

As indicated in Supplier Update #7, we are now progressing with the development of functionality to allow us to include images, product specifications, data sheets and other important information.

We expect the functionality to be completed by the end of November, and will be working with some early adopter suppliers to test the functionality.

If you have images and other documentation that could be included in the HSC, and are happy to be an early adopter, feel free to make contact: hsc@nzhp.health.nz

Additional Product Categories

In order to enhance the value of the HSC as the central source of information for Te Whatu Ora, we are now looking to extend the scope of products included in the HSC.

These additional categories will include:

- · Laboratory products and supplies
- Sterile wraps and consumables (i.e., sterilization equipment, chemicals)
- Orthotics
- Cleaning supplies
- Household supplies (i.e. food and groceries, washroom supplies, containers & bags).
- Stationery & Supplies
- Facility management (i.e. hardware, FF&E, non-medical gases)
- Patient consumables
- Uniforms

We will be working with industry groups and an extended supplier base, as we look to grow the scope of products in the HSC.

Health System Catalogue (HSC) Programme Supplier STATUS UPDATE #8 Continued

REMINDER – Timeframe to Publish Your Data to HSC

The expectation from Te Whatu Ora for publishing data to the HSC is as follows:

- National contract holders 31 December 2022
- All other medical device suppliers 30 June 2023

If you require further information and/or would like assistance to prepare and publish your product data, please contact the HSC Supplier Engagement Lead (Ian Malone) to discuss further: ian.malone@nzhp.health.nz
