

## May 2020 Release Overview

This release contains features in the Phase 1 2020 development plan.

### New Features

The Advanced Search now has the added option to select the date range in which to search for the 'Last Seen in Market' date.

### Advanced Search ×

---

GPC Lookup Nothing selected ▾

Keywords

Last Seen ? Select Range ▾

**Add Custom Attribute P**  Add

▾

- Select Range
- Select Range
- Within Last 12 Months
- Within Last 6 months**
- Custom Date Range

Close Search

Once you select a date range, you will be given the option to "Include new products that don't have last seen date yet". Ticking this option will include in your search all the products added to the database since the last "Last Seen" date was added.

### Advanced Search ✕

---

GPC Lookup Nothing selected ▾

Keywords

Last Seen ?   to   [✕ Reset](#)

Include new products that don't have last seen date yet

**Add Custom Attribute Rules**

▾  ▾  [Add](#)

---

[Close](#) [Search](#)

When you click the "Download Data (X products)" button, you will be given the option to include all past versions of the product data that we have in the database.

### Download Data ✕

---

Include all past versions

Past version data will be saved in a second, separate tab

---

[Close](#) [Download](#)

A pop-up will display to let you know that the database is compiling the information. Depending on how many products you're downloading, this could take upwards of 30sec.

## Download Data ×

Please wait for your browser to start saving the file, you may then close this message

[Close](#)

For now, the past versions of data are in a separate tab labelled "Previous Versions".
